

DECLARATION AND POWER OF ATTORNEY

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name,

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled:

"ROUTER TABLES"

Case No. **P00,1904**, the specification of which is attached hereto and which is a continuation-in-part application of U.S. Serial No. 09/636,702 filed on August 10, 2000.

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims as amended.

I acknowledge the duty to disclose to the United States Patent Office all information which is known to me to be material to the patentability of this application in accordance with Title 37, Code of Federal Regulations, 1.56¹. I also acknowledge the duty to disclose to the United States Patent Office all information known to me to be material to patentability as defined in § 1.56 which became available between the filing date of the prior application Serial No. 09/636,702 and the filing date of this continuation-in-part application.

As to the subject matter of this application which is common to parent application U.S. Serial No. 09/636,702 filed on August 10, 2000, I do not know and do not believe this invention was ever known or used in the United States of America before my or our invention thereof, or patented or described in any printed publication in any country before my or our invention thereof or more than one year prior to the parent application, that the same was not in public use or on sale in the United States of America more than one year prior to the parent application, and I believe that the invention has not been patented or made the subject of an inventor's certificate issued before the date of the parent application in any country foreign to the United States of America on an application filed by me or my legal representatives or assigns more than twelve months prior to the parent application, and that no application for patent or inventor's certificate on this invention has been filed in any country foreign to the United States of America prior to the parent application by me or my legal representatives or assigns, except as identified below.

That as to the subject matter of this application which is not common to U.S. Serial No. 09/636,702 filed on August 10, 2000, I do not know and do not believe that any invention based on the subject matter which is not common to U.S. Serial No. 09/636,702 was ever known or used in the United States of America before my or our invention thereof, or patented or described in any printed publication in any country before my or our invention thereof or more than one year prior to this application, that the same was not in public use or on sale in the United States of America more than one year prior to this application, and I believe that the invention has not been patented or made the subject of an inventor's certificate issued before the date of this application in any country foreign to the United States of America on an application filed by me or my legal representatives or assigns more than twelve months prior to this application, and that no application for patent or inventor's certificate on this invention has been filed in any country foreign to the United States of America prior to this application by me or my legal representatives or assigns, except as identified below:

I hereby claim foreign priority benefits under Title 35, United States Code, 119 of any foreign application(s) for patent or inventor's certificate listed below

¹ (b) Under this section, information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and

- (1) It establishes, by itself or in combination with other information, a *prima facie* case of unpatentability of a claim; or
- (2) It refutes, or is inconsistent with, a position the applicant takes in:

(i) Opposing an argument of unpatentability relied on by the Office, or

(ii) Asserting an argument of patentability.

A *prima facie* case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.

Prior Foreign Application(s)
Number Country Date

and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the above listed application on which priority is claimed:

Prior Foreign Application(s)
Number Country Date

If no priority is claimed, I have identified all foreign patent applications filed prior to this application:

Prior Foreign Application(s)
Number Country Date

And I hereby appoint all Attorneys identified by United States Patent & Trademark Office Customer Number 26574, who are all members of the firm of Schiff Hardin & Waite.

Telephone: 312/258-5779

my attorneys with full power of substitution and revocation, to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith and direct that all correspondence be forwarded to:

Schiff Hardin & Waite
Patent Department
6600 Sears Tower
233 South Wacker Drive
Chicago, Illinois 60606 - 6473
Customer Number 26574

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
